

Phaesun Solar-Led Duo LPL

LED spots with integrated accumulator pack.

The accumulators are charged by means of the solar module which is included in the delivery scope. The two LED spots can be individually adjusted to optimise the illumination according to the local conditions. Integrated, revolvable motion sensor with long distance range.

Technical Data		Solar-Led Duo LPL
product color		white
light source		LED (2 x 1Watt)
luminous paint		cold white
radial adjustment		rotating 60° pivoted downwards 60°
horizontal coverage		130°
vertical coverage		85°
range (at 2.5m mounting height)		10m
Alignment		rotating um 60°
trailing time		movement + 10 sek.
twilight switch		3 lux bis 1000 lux adjustable
operating temperature		-20°C bis +45°C
protection system		IP44
operating voltage		3,6V DC
Battery type		NiMh
battery capacity		750mAh
Standby		40uA
Dimensions		B 112 x H 144 x T 70 mm
Art Nr.		360015

Burn time (Battery max. loaded, no recharging by solar) 50 days at 5 circuits /day /18°C

Cable length solar module <-> Led spotlight 5m.
